The height of waves recorded has been discontinued, from the 1st of November 1887 and 1888, as it has been shown more than sufficient to give the character of the weather and the lower-water Ordinary Spring Tides, to which data alone the Admiralty has been supplied.

The heights in the Tables marked with a minus sign are discontinued from the 1st of November 1888, as it would be impossible to give the character of the weather.
